RECOGNIZING HIGH IMPACT INDUSTRY LEADERS

Andrew Tysinger

Mechanic
Forsyth Redi-Mix

MIXER & PLANT PARTS MFG, LLC

LEARN MORE ABOUT ANDREW TYSINGER AND THE MPACT HE MAKES AT FORSYTH RMX.

1. What brought you into this field?
I just fell into it. One thing fell into another. and it all just happened. I grew up working on heavy trucks, my family moves mobile homes and stuff like that.

2. What is the difference between heavy trucks and mixer? The only thing thats the same is the transmission. Mixer trucks are much much heavier

3. How long have you been in the industry? 6.5 years. all here at FRMX.

4. What do you enjoy most about being in the ready mix industry? Everything is different. New challenges and nothing stays the same

5. What's the most memorable occasion you have had this year?
We had some serious problems with trucks in the last year, we had 3 trucks roll over. It's crazy to see something that big, carrying that much, on its side in the road.

6. What is one tip you'd give to someone new entering the field?
Stay committed. See things through. As long as you're committend, and have the will to work, there isnt anything that can't be gone through.

7. Outside of work, what hobbies do you have?
Fishing is one of my most favorite. But hanging out with the family, taking the kids to do something fun. Didn't catch any fish last time, the kids liked swimming too much

8. Tell us aboiut any kids? I have 3 kids, Willow - 10, Olivia - 8, and Waylan -6

9. If you could only eat one meal for the rest of your life, what would it be? Hot Wings. Change it up, different sauces. So good.
