

AN IMPORTANT MESSAGE TO OUR CUSTOMERS

At Mixer & Plant Parts MFG, we understand that the customers we serve, in addition to the products we supply, are essential components supporting a diverse range of end markets and keeping critical infrastructure operational. I am writing you today to provide an update on our current operating conditions along with other relevant information regarding our response to the coronavirus (COVID-19) pandemic.

As you are aware, several state and local jurisdictions have issued “safer at home”, “shelter in place” or “stay home, work safe” orders restricting non-essential businesses from operating in an effort to slow the rate of infection of the coronavirus (COVID-19). In each of our operating jurisdictions, MPPARTS has been deemed an Essential Business as we provide products that supply a wide variety of essential companies. We remain open and ready to serve you; just as we have since 2008.

We hold the safety of our employees, suppliers, and customers paramount and we continue to closely monitor the ever-changing situation concerning this virus. Where practical many of our employees are now working remotely and, in our warehouses, we have implemented protocols as suggested by the CDC to limit the spread of the virus. As of this writing, we have been very fortunate and have had zero confirmed cases of coronavirus among any of our team members.

In summary, now more than ever, you can count on us to deliver. We are operating at normal capacities and we stand ready to support you. We will continue to monitor the dynamic situation concerning COVID-19 and take necessary steps to protect our employees, customers and suppliers. Should the operating condition at any of our locations significantly change from this update I will update you as soon as feasible. In the meantime, our team stands ready to serve you.

Stay safe and all the best,

A handwritten signature in blue ink that reads "Brandon Syler".
