1. **What do you enjoy best about being in the ready-mix industry?** There's so much opportunity to learn about the concrete trucks. They are constantly moving, constantly breaking, no two things are alike. I've been working on them since I was about 18 years old, and I still haven't gotten the full breadth of repairs. Some days you get frustrated because you have to deal with the concrete on them - some drivers don't take care of the truck like others do. Every day is different, you never get bored.
2. **What's the most memorable moment of your career?** Moving down south - Boston is cold!
3. **What's a fun thing nobody knows about you?** I love going on the pontoon boat, we go every weekend. I LOVE hiking - we used to go to Maine every year when I lived up north. Now we spend a lot of time on the water, living this close to the ocean. Really just getting out with my family and hanging out. Also a fan of Joel Osteen.

“EVERY DAY IS DIFFERENT, YOU NEVER GET BORED.”

5. **What's the last concert you attended?** Chris Stapleton
6. **If you had to eat one meal every day for the rest of your life, what would it be?** Probably a really good cheeseburger. If I had to pick a favorite restaurant, I would say its Dead Dog Saloon in Myrtle Beach, every time we go there we stop there, get some drinks, have some food - they usually tend to have a band there, right on the water.
