

CUSTOMER MPACT SPOTLIGHT:

Adam Seikel

Assistant Director
Citizen Potawatomi Concrete

LEARN MORE ABOUT ADAM SEIKEL AND THE MPACT HE MAKES AT CITIZEN POTAWATOMI CONCRETE AND IN HIS COMMUNITY

- 1. What do you enjoy best about the ready mix concrete industry?** I guess the biggest thing is that you actually see where your work goes, like we're building a new hotel and stuff like that. You actually watch your projects be built. So that's always pretty cool. You actually see where your work goes.
- 2. How long have you been a mechanic?** 13 years this January!
- 3. What is the most memorable thing you've done in the last year?** I would say building our old Hotel Casino - the grand out there on I-40. Remember getting up early, REAL early in the morning,
- 4. What is one tip you would share with a new hire in your field?** Don't accidentally leave your water valve open once pressured up.
- 5. What kind of hobbies do you have?** Coaching my son's youth baseball team, and golf. I'm shooting anywhere from 84-90!
- 6. How did you get into the field?** Well, I was on the fire department with the guy who used to be the director, and I asked him if he needed any hands. You know, I'd never driven a truck before. Didn't even have a CDL at the time, and he said, "Yeah, come on". So I showed up here, got my CDL, started driving, and been here ever since.
- 8. Who inspires you?** Number one has to be my dad - he showed me a lot of different things in my life. He was a plumber his whole life, and he still is. He showed me a lot of different things throughout life. And oddly enough, I guess second one has to be my son, because I want to be a good role model for him, show him, the same type of things my dad has done for me in my life.
- 9. What's a fun fact about you nobody knows?** I officiate High School football. It just got started so I'm staying pretty busy.
- 10. What's your favorite book or movie?** Book: Harrison Movie: 13 Hours
- 11. What's the first concert you attended?** Garth Brooks
